This is your opportunity to let us know how important your volunteers(s) are to you. Please let us know about your volunteer, what an asset they are to you and to our community. It is helpful if you can share information about other causes/agencies that benefit from the individual's volunteerism if he or she is active with groups other than your own in our community.

If necessary you can attach an additional page to the official form. Again, this recognition is for non-paid volunteer contributors that are age 75 or better as of April 1, 2011. Past honorees are not eligible for the award.

1. List the community activities that benefit from the nominee's current volunteer services. Time per week/month? How many years has the individual volunteered for each activity? (We are interested in all community volunteer activities, including time the nominee spends volunteering for organizations other than your own. Please describe all volunteer services)

2. Who has benefited from your nominee's volunteer activities?

3. Describe some personal traits of the volunteer that contribute to his/her effectiveness.

4. Is there one particular story about your volunteer that you would like to share? (Add any additional comments or attach any materials which may be of importance in the selection of the outstanding individual, 75 year or older).
